State code 6: Protection of state transport networks

6.1 Purpose statement

The purpose of this code is to:

1. protect state transport infrastructure, public passenger transport infrastructure and public passenger services from the adverse impacts of development
2. maintain the operational performance of the transport network
3. ensure development enables safe and convenient access to public passenger transport.

Specifically, this code seeks to ensure development:

1. does not create a safety hazard for users of state transport infrastructure or public passenger services by increasing the likelihood or frequency of a fatality or serious injury
2. does not result in a worsening of the physical condition or operating performance of the state transport network
3. does not compromise the state’s ability to cost-effectively construct, operate and maintain state transport infrastructure
4. provides public passenger transport infrastructure to enable development to be serviced by public passenger transport
5. provides safe and direct access to public passenger transport infrastructure, including access by cycling and walking.

6.2 Performance outcomes and acceptable outcomes

Table 6.2.1 identifies which performance outcomes in table 6.2.2 and 6.2.3 are relevant for the development types listed in schedule 20 of the Planning Regulation 2017.

All development should demonstrate compliance with the relevant provisions of table 6.2.2 and table 6.2.3, where relevant.

| PO1 Development does not result in a worsening of the safety of a *state-controlled road*.  
  **Note:** To demonstrate compliance with this performance outcome, it is recommended that a Registered Professional Engineer of Queensland (RPEQ) certified road safety audit or road safety assessment (as applicable) is provided. Further information on determining whether a road safety audit or road safety assessment is required will be provided in the forthcoming document Guide to Traffic Impact Assessment, Department of Transport and Main Roads, 2017. | No acceptable outcome is prescribed. |
| PO2 Development does not result in a worsening of the infrastructure condition of a *state-controlled road* or *road transport infrastructure*.  
  **Note:** To demonstrate compliance with this performance outcome, it is recommended that a RPEQ certified traffic impact assessment and pavement impact assessment are provided. Further information will be provided in the forthcoming document Guide to Traffic Impact Assessment, Department of Transport and Main Roads, 2017. | No acceptable outcome is prescribed. |
| PO3 Development does not result in a worsening of operating conditions on a *state-controlled road* or the surrounding road network.  
  **Note:** To demonstrate compliance with this performance outcome, it is recommended that an RPEQ certified traffic impact assessment is provided. Further information will be provided in the forthcoming document Guide to Traffic Impact Assessment, Department of Transport and Main Roads, 2017. | No acceptable outcome is prescribed. |
| PO4 Development does not impose traffic loadings on a *state-controlled road* which could be accommodated on the *local road network*. | AO4.1 The layout and design of the development directs traffic generated by the development to the local road network. |
| PO5 Upgrade works on, or associated with, a *state-controlled road* are built in accordance with relevant design standards. | AO5.1 Upgrade works on a *state-controlled road* are designed and constructed in accordance with the Road Planning and Design Manual, 2nd edition, Department of Transport and Main Roads, 2016. |
| PO6 Development involving the haulage of fill, extracted material or excavated spoil material exceeding 10,000 tonnes per year does not damage the pavement of a *state-controlled road*.  
  **Note:** It is recommended that a transport infrastructure impact assessment and pavement impact assessment are provided. Further information will be provided in the forthcoming document Guide to Traffic Impact Assessment, Department of Transport and Main Roads, 2017. | AO6.1 Fill, extracted material and spoil material is not transported to or from the development site on a *state-controlled road*. |
| PO7 Development does not adversely impact on the safety of a *railway crossing*.  
  **Note:** It is recommended that a traffic impact assessment be prepared to demonstrate compliance with this performance outcome. An impact on a level crossing may require an Australian Level Crossing Assessment Model (ALCAM) assessment to be undertaken. Section 2.2 – Railway crossing safety of the Guide to Development in a Transport Environment: Rail, Department of Transport and Main Roads, 2015, provides guidance on how to comply with this performance outcome. | AO7.1 Development does not require a new railway crossing.  
  **OR**  
  AO7.2 A new railway crossing is grade separated.  
  **OR** all of the following acceptable outcomes apply:  
  AO7.3 Upgrades to a level crossing are designed and constructed in accordance with AS1742.7 – Manual of uniform traffic control devices, Part 7: Railway crossings and... |

</table>
### Performance outcomes | Acceptable outcomes
--- | ---
PO19 Development provides safe, direct and convenient pedestrian access to existing and future public passenger transport infrastructure. | Hump profiles for bus routes. No acceptable outcome is prescribed.  
Note: Chapter 3 of the Public Transport Infrastructure Manual, Department of Transport and Main Roads, 2015 provides guidance on how to comply with this performance outcome. In particular, it is recommended that a pedestrian demand analysis be provided to demonstrate compliance with the performance outcome.

PO20 On-site vehicular circulation ensures the safety of both public passenger transport services and pedestrians. | AO20.1 The location of on-site pedestrian crossings ensures safe sight distances for pedestrians and public passenger services. AND AO20.2 On-site circulation is designed and constructed so that public passenger services can enter and leave in a forward gear at all times. AND AO20.3 Development does not result in public passenger services movements through car parking aisles.

PO21 Taxi facilities are provided to accommodate the demand generated by the development. | No acceptable outcome is prescribed.  
Note: Guidance on how to meet the performance outcome are available in chapter 7 of the Public Transport Infrastructure Manual, Department of Transport and Main Roads, 2015.

PO22 Taxi facilities are located and designed to provide convenient, safe and equitable access for passengers. | AO22.1 A taxi facility is provided parallel to the kerb and adjacent to the main entrance. AND AO22.2 Taxi facilities are designed in accordance with: 1. AS2890.5–1993 Parking facilities – on-street parking and AS1428.1–2009 Design for access and mobility – general requirements for access – new building work 2. AS1742.11–1999 Parking controls – manual of uniform traffic control devices 3. AS/NZS 2890.6–2009 Parking facilities – off-street parking for people with disabilities 4. Disability standards for accessible public transport 2002 made under section 31(1) of the Disability Discrimination Act 1992 5. AS/NZS 1158.3.1 – Lighting for roads and public spaces, Part 3.1: Pedestrian area (category P) lighting – Performance and design requirements.

PO23 Educational establishments are designed to ensure the safe and efficient operation of public passenger services and pedestrian access. | AO23.1 Educational establishments are designed in accordance with the provisions of the Planning for Safe Transport Infrastructure at Schools, Department of Transport and Main Roads, 2011.

6.4 Glossary of terms

Accommodation activity means any of the following:

1. caretaker’s accommodation
2. community residence
3. dual occupancy
4. dwelling house
5. dwelling unit
6. multiple dwelling
7. relocatable home park
8. residential care facility
9. resort complex
10. retirement facility
11. rooming accommodation
12. short-term accommodation
13. tourist park
14. a development with a combination of uses 1 to 13.

Note: Arterial road means a road that predominantly carries through traffic from one region to another, forming principal avenues of travel for traffic movements.

Club see schedule 24 of the Planning Regulation 2017.
Note: Club means the use of premises for:

1. an association established for literary, political, sporting, athletic or other similar purposes; or
2. preparing and selling food or drink, if the use is ancillary to the use in paragraph 1.

DA mapping system means the mapping system containing the Geographic Information System mapping layers kept, prepared or sourced by the state that relate to development assessment and
matters of interest to the state in assessing development applications.
Note: The DA mapping system is available on the department’s website.

**Educational establishment** see schedule 24 of the Planning Regulation 2017.
Note: **Educational establishment** means the use of premises for:
1. training and instruction to impart knowledge and develop skills; or
2. student accommodation, before or after school care, or vacation care if the use is ancillary to the use in paragraph 1.

**Extractive industry** see schedule 24 of the Planning Regulation 2017.
Note: **Extractive industry** means the use of premises for:
1. extracting or processing extractive resources
2. any related activities, including, for example, transporting the resources to market.

**Function facility** see schedule 24 of the Planning Regulation 2017.
Note: **Function facility** means the use of premises for:
1. receptions or functions; or
2. preparing and providing food and liquor for consumption on the premises as part of a reception or function.

**High impact industry** see schedule 24 of the Planning Regulation 2017.
Note: **High impact industry** means the use of premises used for an industrial activity:
1. that is the manufacturing, producing, processing, repairing, altering, recycling, storing, distributing, transferring or treating of products
2. that a local planning instrument applying to the premises states is a **high impact industry**
3. that complies with any thresholds for the activity stated in a local planning instrument applying to the premises, including, for example, thresholds relating to the number of products manufactured or the level of emissions produced by the activity.

**Hospital** see schedule 24 of the Planning Regulation 2017.
Note: **Hospital** means the use of premises for:
1. the medical or surgical care or treatment of patients, whether or not the care or treatment requires overnight accommodation; or
2. providing accommodation for patients; or
3. providing accommodation for employees, or any other use, if the use is ancillary to the use in paragraphs 1 or 2.

**Hotel** see schedule 24 of Planning Regulation 2017.
Note: **Hotel** means the use of premises for:
1. selling liquor for consumption on the premises
2. a dining or entertainment activity, or **short-term accommodation** if the use is ancillary to the use in sub-paragraph 1; but
3. does not include a bar.

**Intensive animal industry** see schedule 24 of the Planning Regulation 2017.
Note: **Intensive animal industry** means the use of premises for:
1. the intensive production of animals or animal products, in an enclosure, that requires food and water to be provided mechanically or by hand; or
2. storing and packing feed and produce, if the use is ancillary to the use in paragraph 1; but
3. does not include the cultivation of aquatic animals.

**Limited access policy** see the **Transport Infrastructure Act 1994**.
Note: **Limited access policy** means a policy for a **limited access road** prepared under section 54(4) of the **Transport Infrastructure Act 1994**. A limited access policy can be obtained by contacting the appropriate Department of Transport and Main Roads’ regional office.

**Limited access road** see the **Transport Infrastructure Act 1994**.
Note: **Limited access road** means a **state-controlled road**, or part of a **state-controlled road**, declared to be a **limited access road** under section 54 of the **Transport Infrastructure Act 1994**.
See the DA mapping system.

**Local road** means a road controlled by a local government authority.

**Major sport, recreation and entertainment facility** see schedule 24 of the Planning Regulation 2017.
Note: **Major sport, recreation and entertainment facility** means the use of premises for large-scale events, including, for example, major sporting, recreation, conference or entertainment events.
New or changed access see schedule 24 of the Planning Regulation 2017.
Note: New or changed access between premises and a road or state transport corridor means:

1. the use of a new location as a relevant vehicular access between the premises and the road or corridor; or
2. the construction of a new relevant vehicular access between the premises and the road or corridor; or
3. the extension of an existing relevant vehicular access between the premises and the road or corridor; or
4. an increase in the number of vehicles regularly using an existing relevant vehicular access between the premises and the road or corridor; or
5. a change in the type of vehicles regularly using an existing relevant vehicular access between the premises and the road or corridor.

Planned upgrade means an extension, upgrade, or duplication of state transport infrastructure or transport networks for which affected land has been identified:

1. in a publicly available government document; or
2. in written advice to affected land owners.

Note: Government documents are Commonwealth, state or local government documents that include a statement of intent for, or a commitment to, a planning outcome or infrastructure provision.
See the DA mapping system.

Note: Public passenger service means a service for the carriage of passengers if:

1. the service is provided for fare or other consideration
2. the service is provided in the course of a trade or business (but not if it is provided by an employer solely for employees)
3. the service is a courtesy or community transport service; and
4. includes a driver service and a service for the administration of taxi services, but does not include a service excluded from the Transport Operations (Passenger Transport) Act 1994 by a regulation.

Public passenger transport see section 3 of the Transport Planning and Coordination Act 1994.
Note: Public passenger transport means the carriage of passengers by a public passenger service using a public passenger vehicle.

Public passenger transport infrastructure see section 3 of the Transport Planning and Coordination Act 1994.
Note: Public passenger transport infrastructure means infrastructure for, or associated with, the provision of public passenger transport, including, but not limited to:

1. a transit terminal for public passenger services (for example, an airport terminal, a coach terminal, a cruise ship terminal)
2. a ferry terminal, jetty, pontoon or landing for ferry services
3. a bus stop, bus shelter, bus station or bus lay-by
4. a busway station
5. a light rail station
6. a taxi rank, limousine rank or limousine standing area
7. a railway station
8. vehicle parking and set-down facilities
9. pedestrian and bicycle paths and bicycle facilities; or
10. a road on which a public passenger transport service operates.

Rail transport infrastructure see schedule 6 of the Transport Infrastructure Act 1994.
Note: Rail transport infrastructure means facilities necessary for operating a railway, including:

1. railway track and works built for the railway, including for example:
   a. cuttings; or
   b. drainage works; or
   c. excavations; or
   d. land fill; or
   e. track support earthworks any of the following things that are associated with the railway's operation:
      i. bridges; or
      ii. communication systems; or
      iii. machinery and other equipment; or
      iv. marshalling yards; or
      v. noticeboards, notice markers and signs; or
      vi. overhead electrical power supply systems; or
      vii. over-track structures; or
      viii. platforms; or
      ix. power and communication cables; or
      x. service roads; or
xi. signalling facilities and equipment; or
xii. stations; or
xiii. survey stations, pegs and marks; or
xiv. train operation control facilities; or
xv. tunnels; or
xvi. under-track structures vehicle parking and set down facilities for intending passengers for a railway that are controlled or owned by a railway manager or the chief executive [TIA]; or
xvii. pedestrian facilities, including footpath paving, for the railway that are controlled or owned by a railway manager or the chief executive [TIA], but does not include other rail infrastructure.

Railway see schedule 6 of the Transport Infrastructure Act 1994.  
Note: Railway means a guided system, or proposed guided system, designed for the movement of rolling stock that is capable of transporting passengers or freight, or both, on a railway track, and:
1. includes:
   a. rail transport infrastructure;
   b. a railway being or proposed to be built on future railway land; but
2. does not include:
   a. rolling stock;
   b. a railway mentioned in section 107(2) of the Transport Infrastructure Act 1994.

Railway crossing see schedule 6 of the Transport Infrastructure Act 1994.  
Note: Railway crossing means a level crossing, bridge or another structure used to cross over or under a railway.

Residential care facility see schedule 24 of the Planning Regulation 2017.  
Note: Residential care facility means the use of premises for supervised accommodation, and medical and other support services, for persons who:
1. cannot live independently; or
2. require regular nursing or personal care.

Road hump see part 13, 1.3.4 of the Manual of Uniform Traffic Control Devices (MUTCD).  
Note: Road hump means a raised transverse section of road causing sharp vertical displacement of vehicles, which is provided as a speed reduction (traffic calming) measure.

Road transport infrastructure see schedule 6 of the Transport Infrastructure Act 1994.  
Note: Road transport infrastructure means transport infrastructure relating to roads.

Shop see the schedule 24 of Planning Regulation 2017.  
Note: Shop means the use of premises for:
1. the display, sale or hire of goods; or
2. providing personal services or betting to the public.

Shopping centre see schedule 24 of the Planning Regulation 2017.  
Note: Shopping centre means the use of premises for an integrated shopping complex consisting mainly of shops.

Short-term accommodation see schedule 24 of the Planning Regulation 2017.  
Note: Short-term accommodation means the use of premises for:
1. providing accommodation of less than 3 consecutive months to tourists or travellers; or
2. a manager’s residence, office, or recreation facilities for the exclusive use of guests, if the use is ancillary to the use in paragraph 1; but
3. does not include a hotel, nature-based tourism, resort complex or tourist park.

Special industry see schedule 24 of the Planning Regulation 2017.  
Note: Special industry means the use or premises for an industrial activity: 
1. that is the manufacturing, producing, processing, repairing, altering, recycling, storing, distributing, transferring or treating of products
2. that a local planning instrument applying to the premises states is special industry
3. that complies with any thresholds for the activity stated in a local planning instrument applying to the premises, including, for example, thresholds relating to the number of products manufactured or the level of emissions produced by the activity.

State-controlled road means:

1. a state-controlled road within the meaning of the Transport Infrastructure Act 1994, schedule 6; or
2. state toll road corridor land.
Note: See the DA mapping system.

**State transport corridor** see schedule 24 of the Planning Regulation 2017.
Note: State transport corridor means:

1. a busway corridor; or
2. a light rail corridor; or
3. a railway corridor; or
4. a state-controlled road.

**State transport infrastructure** means any of the following:

1. **state-controlled road**; or
2. busway transport infrastructure under the *Transport Infrastructure Act 1994*; or
3. light rail transport infrastructure under the *Transport Infrastructure Act 1994*; or
4. rail transport infrastructure under the *Transport Infrastructure Act 1994*; or
5. other rail infrastructure under the *Transport Infrastructure Act 1994*; or
6. active transport infrastructure under the *Transport Planning and Coordination Act 1994*.

**Sub-arterial road** see Glossary of Terms 4th edition, Austroads, 2015.

**Taxi facilities** see chapter 7 Public Transport Infrastructure Manual, Department of Transport and Main Roads, 2015.
Note: **Taxi facilities** means either a taxi rank or taxi bay.

**Theatre** see schedule 24 of the Planning Regulation 2017.
Note: **Theatre** means the use of premises for:
1. presenting movies, live entertainment or music to the public; or
2. the production of film or music; or
3. the following activities or facilities, if the use is ancillary to the use in paragraph 1 or 2:
   a. preparing and selling food and drink for consumption on the premises
   b. facilities for editing and post production
   c. facilities for wardrobe, laundry and make-up
   d. set construction workshops
   e. sound stages.

**Tourist attraction** see schedule 24 of the Planning Regulation 2017.
Note: **Tourist attraction** means the use of premises for:
1. providing entertainment to, or a recreation facility for, the general public; or
2. preparing and selling food or drink for consumption on the premises, if the use is ancillary to the use in paragraph 1.

**Transport network** means the series of connected routes, corridors and transport facilities required to move goods and passengers and includes roads, *railways*, public transport routes (for example, bus routes), active transport routes (for example, cycle ways), freight routes and local, state and privately owned infrastructure.

### 6.5 Abbreviations

RPEQ – Registered Professional Engineer of Queensland
